IN CASES OF 50 BOTTLES
WOOLLEY AND CO.

No. 9034 BUENOS AYRES, SATURDAY, OCTOBER 15, 1892 XXXII YEAR

To any one wishing to see some fine specimens of North American Oak worked into attractive and servicable furniture, we would suggest their calling at the Store No. 656 Calle Cangallo, where we have just received from our factory on Calle Santa Fé, new designs in bedroom suites, double and single door wardrobes and fancy card and tea tables, all hard polished, and showing to advantage the grain of the wood; also new designs in maple and walnut beds—single, three-quarters, and double; and all at very low prices.

Also many different patterns of attractive oak chairs, and all of them exceedingly comfortable. We will soon receive a large line of fancy wall cabinets, English wardrobes, and other attractive articles of furniture, all entirely new in design.

The large assortment of folding beds have found a ready sale to those having a limited amount of room at their disposal and desiring to make the most of it.—**Edgar T. Ely,** 656 Calle Cangallo.

## TELEGRAMS TO STANDARD.

*By direct cables via Lisbon.*

London, 14th—The dynamiter François has been arrested here.

It is thought that the steamer Bokhara has been lost on the coast of China, as she has not been heard of for a long time.

The Radicals have lost the Cirencester election in Glouncestershire by three votes.

Paris, 14th—Premier Loubet is ill.

Marquis Solayes, Director of the Carmaux Coal Company, has resigned his seat as Deputy, in order to show his disapproval of the course of the Government in the strike, and it is thought that this will still further aggravate the question at issue.

Government is resolved to act energetically and has taken all kinds of precautions to suppress disorder. The strikers have no funds, and must yield in the end.

Berne, 14th—The Federal Council will consider the slightest change that France may introduce in the recent commercial treaty as sufficient cause for a commercial rupture.

Rome, 14th—Sixty Socialist candidates will come forward at the elections.

Grimaldi, the Finance Minister, has categorically contradicted the rumour that the Government will be unable to pay the January coupons.

Vienna, 14th—The Czarevitch has passed through this city on his way to Italy, to embark for Greece.

Emperor William has left for Dresden.

The Austrian papers attribute no importance to his visit; but it is thought that at the interviews between the two Emperors and Emperor William and Kalnocky the solidarity of interests of the two empirss and benefic influence of the Triple Alliance were dwelt upon.

Bucharest, 14th—Shocks of earthquake have been felt here and at Sophia.

Berlin, 14th—The tramway drivers and guards have held a meeting and decided to ask for more wages and less work. If not granted, they will strike.

Nice, 14th—Preparations to celebrate next month the first annexation of Nice to France have commenced.

London, 14th — When Parliament meets Sir Charles Dilke will bring in a Bill for the evacuation of Egypt, or at least its neutralization.

Constantinople, 14th—The armament of the great forts that protect Constantinople at the entrance to the Black Sea, at Cabak, is completed.

*(Per Havas Agency.)*

London, 14th—The Parisian Anarchist Francis, Ravachol's companion, and implicated in the explosion at the Very Restaurant in April, was arrested here to-day.

He will be handed over to the French authorities for trial.

Paris, 14th—A fresh death from suspected cholera is announced at Marseilles.

A post mortem will determine if the case is of real cholera, as it seems to be more like it than previous cases.

Vienna, 14th—Emperor William left for Berlin this morning. While here, His Majesty received many manifestations of regard from the populace.

Brussels, 14th—The coal miners at Mons have struck.

*(To the "Prensa".)*

London, 13th.—Serious encounters between Christians and Jews have occurred in Russia, at Ostrowo. So formidable was the affair that a whole corps of the army had to be sent to suppress it, and had much difficulty in doing so.

Cholera is spreading rapidly in the South-east provinces of Russia.

The *Times* correspondent in Rome says that the Italian Government is concealing its real intentions in the currency question, and that no substantial improvement can be expected, even should the deficit be materially reduced.

Berlin, 13th.—The disagreement amongst the members of the Cabinet continues, and a serious crisis is looked for. Count Eulenberg is expected to succeed Caprivi, should the latter resign.

Rome, 13th.—Government intends to seek a monopoly in the import and sale of mineral oils.

## ARGENTINE RAILWAYS IN 1891.

The annual report may be compressed into a dozen tables shewing the figures for last year compared with those of 1890.

| Total............ | 5,710 | 7,310 |

During the year there was an increase of 1,600 miles of new lines opened to traffic, and the capital of the several lines shewed thus (the figures for Entre Rios are estimates):—

| | Capital, £ sterling | |
|---|---|---|
| | 1890 | 1891 |
| B. Ayres & Rosario... | 8,400,000 | 8,400,000 |
| Central Argentine.... | 9,800,000 | 10,100,000 |
| Great Southern...... | 11,100,000 | 11,600,000 |
| Western B. Ayres.... | 6,000,000 | 6,000,000 |

| N. E. Argentine...... | 6,200,000 | 6,200,000 |
| Other lines........... | 7,050,000 | 10,650,000 |
| Total......... | 68,800,000 | 76,900,000 |

The average capital in 1891 was £10,500 per mile, but the above included some miles in construction (especially in the case of the North East Argentine lines in Corrientes, the actual outlay on which was under £2,000,000), so that the real cost was something under £10,000 a mile.

The traffic on the principal lines is shewn in the following table in 1891:—

| | Passengers. | Tons goods |
|---|---|---|
| B. Ayres & Rosario........ | 1,515,000 | 660,000 |
| Central Argentine........ | 2,410,000 | 770,000 |
| Gt. Southern... | 2,028,000 | 712,000 |
| West. B. Ayres | 2,001,000 | 770,000 |
| Ensenada ..... | 1,410,000 | 250,000 |
| Pacific ........ | 254,000 | 150,000 |
| S. Fé Colonies | 310,000 | 365,000 |
| N.W. Argentine | 203,000 | 140,000 |
| North Central.. | 275,000 | 340,000 |
| Other lines .... | 414,000 | 533,000 |
| Total...... | 10,820,000 | 4,690,000 |

There has been a notable decline of passenger and goods traffic since 1889, notwithstanding the fact that 2,300 miles of new lines have been opened.

| | Passengers. | Tons goods. |
|---|---|---|
| 1889 | 11,104,000 | 6,720,000 |
| 1890 | 10,067,000 | 5,465,000 |
| 1891 | 10,820,000 | 4,690,000 |

This decline is mainly owing to the "bullock-cart competition", of which Mr. Cooper and other London directors have spoken so feelingly on various occasions.

The receipts and expenditure in shinplaster currency on the several lines in 1891 shewed thus:—

| | Receipts $currency. | Expenses $currency. |
|---|---|---|
| B. Ayres & Rosario........ | 9,204,000 | 5,260,000 |
| Central Argentine.......... | 7,050,000 | 5,808,000 |
| Great Southern | 17,144,000 | 8,338,000 |
| West. B. Ayres | 7,464,000 | 3,902,000 |
| Ensenada ..... | 2,216,000 | 1,311,000 |
| Pacific......... | 2,899,000 | 2,536,000 |
| S. Fé Colonies | 2,436,000 | 2,032,000 |
| Arg.G.Western | 2,606,000 | 2,380,000 |
| Cent. Northern | 2,575,000 | 3,001,000 |
| East Argentine | 119,000 | 131,000 |
| Other lines...... | 3,722,000 | 4,561,000 |
| Total ....... | 57,435,000 | 39,260,000 |

Receipts and expenditure in currency for the last 3 years shewed thus:—

| | 1889 | 1890 | 1891 |
|---|---|---|---|
| | $ | $ | $ |
| Receipts. | 35,240,000 | 41,160,000 | 57,435,000 |
| Expenses | 24,410,000 | 27,780,000 | 39,260,000 |
| Profit.... | 10,830,000 | 13,380,000 | 18,175,000 |

Working-expenses averaged 70 per cent of receipts in 1889, but declined to 68 per cent in 1891.

The net earnings in 1891 per mile of rail open were as follows—

| | $ currency. |
|---|---|
| B. Ayres and Rosario.. | 4,380 |
| Central Argentine .... | 1,730 |
| Great Southern......... | 9,360 |
| Western Buenos Ayres | 10,450 |
| Ensenada............... | 13,600 |
| Pacific.................. | 850 |
| Santa Fé Colonies .... | 580 |
| Argentine G. Western. | 700 |

The Central Northern and the East Argentine shewed a dead loss, expenses being in excess of receipts. Most of the lines of less note were likewise worked at a loss.

If we take the 5 best lines in the country and reduce their net earnings to gold at the current value in 1891 we find the result compared with capital as follows—

| | Net earning | Int. on capital |
|---|---|---|
| | £ sterling | |
| B. Ayres & Rosario | 213,000 | 2·5 |
| Central Argentine... | 67,000 | 0·7 |
| Great Southern.... | 480,000 | 4·1 |
| Western B. Ayres.. | 192,000 | 3·2 |
| Ensenada.......... | 49,000 | 2·5 |
| Total.......... | 1,001,000 | 2·6 |

All the other lines taken collectively shewed a net loss of £31,000 sterling. In fact the total net earnings of all Argentine railways in 1891 was only £970,000 sterling, or a fraction over *one* per cent on the cost of construction.

Capital and net profits in the last three years compares as follows:—

| Year | Capital | Profits | Int. on capital |
|---|---|---|---|
| | £ sterlg. | £ sterlg. | |
| 1889. | 49,750,000 | 1,190,000 | 2·4 |
| 1890. | 68,800,000 | 1,070,000 | 1·6 |
| 1891. | 76,900,000 | 970,000 | 1.3 |

Of the 27 lines running in 1891 no fewer than 13 were run at a loss; nor does the future of such lines give promise of improvement. There are too many competing lines, and yet we see that in Dec. 1891 there were 1,520 miles of new lines in construction.

## PROVINCIAL NEWS.

The Columbian festivities seem to have been a success all over the country, the Italian element distinguishing itself by its activity. The Italians think more of Columbus than other nationalities do. They maintain he was an Italian, and in fact there is a very general opinion that he was born in Italy, although three years ago someone, whose name we cannot recall, published an article in a magazine to prove that the great navigator was of Irish extraction. However this may be, Columbus's memory was honoured on this centenary in rare style by the Italians. On the whole, the enthusiasm was pretty general, as the occasion to fete the centenary only occurs once in a while. In San Luis the occasion was availed of to throw off the leaden monotony which generally weighs on things "puntano." There was a big procession in the Plaza. The Governor shewed his face, and was feebly cheered and loudly hissed at the same time, a not uncommon occurrence in these latitudes. His Excellency only heard the hisses and was very angry, but the official ire soon calmed down. In Cordoba, Rioja, San Juan, Mendoza, in fact in all the provinces, there was an equal display of enthusiasm. In Chivilcoy and other towns of the queen province there were torch-light processions and balls. In the midst of all this amusement and pleasurable excitement, there was some feeling of anxiety, for it appears to have been a pretty general conviction that disturbances would break out in Buenos Ayres on the occasion of the installation of the new President.

We are absolutely bewildered by all the Columbian literature in our provincial contemporaries, whose admiration for the discoverer simply runs riot in their columns. After wading through nine columns of our usually invaluable exchange, the *Dia* of La Plata, pushing our net into every nook and corner in the faint hope of catching a minnow, we finally caught something, viz.:—a mild protest against the splendor of the interment of the remains of Dr. Rozzalupi, who, it may be remembered, committed suicide the other day in La Plata. The author of the protest in question tries to prove that such a funeral is an incentive to self-murder. There is something in that. Only the other day we read a case in point in one of our sensational North American exchanges. A young man, full of enterprise, but always unlucky, finally was seized with the ambition of being buried with great pomp. It was the only enterprise he had never attempted and he was resolved to succeed. He announced a lecture on suicide, promising a practical illustration, and the announcement drew wonderfully. On the conclusion of the lecture he blew his brains out, and the proceeds of the lecture—$30,000—defrayed the expense of a magnificent funeral. We do not guarantee the veracity of the tale. It comes from North America. It goes to shew that people will do queer things to ensure a good funeral.

Our Rosario exchanges relate the particulars of a daring robbery perpetrated by 6 men, who wore masks. These six fellows on Thursday morning attacked the Pontoon Theodora, overpowered the sailor on watch, bound him, gagged him, and then made off with 250 cases of gunpowder and several others of dynamite. The port authorities set out in pursuit, but, as usual, they were too late, and only found ten empty cases floating about.

## ENTERTAINMENT AT LOMAS.

Since the founding of the Holy Trinity Church at Lomas by the English-speaking residents of the Southern suburbs some years ago, the continued rapid increase of the congregation under the able ministrations of the Rev. Canon Pinchard has necessitated additions being made to the fabric from time to time. At no slight expense it is true have these additions been carried out; yet, thanks to the liberality of those attending the Church and their friends, the debt incurred by each successive improvement has invariably been cleared off shortly after opening. Recently very extensive alterations have been executed in order to considerably increase the sitting accommodation; the work having extended over a period of several weeks and caused the services to be suspended for two Sundays. On the 9th inst. they were resumed, and a special service was conducted by the Vicar.

These alterations have not naturally been carried out without a considerable expense, and, notwithstanding many liberal offerings, there yet remained a debt of some $1,700 to be cleared, when the happy idea of holding a dramatic entertainment to aid in liquidating that sum occurred to Mr. W. W. Hayward, one of the Principals of the Lomas Academy, who, with the aid of a few adult friends and several of the pupils of the Academy, set about preparing an excellent programme.

The final dress rehearsal took place on Saturday evening last, and, in view of the small sitting capacity of the Italian Hall, it was arranged in order to prevent overcrowding on the night of the performance to admit children at a merely nominal charge to this rehearsal. In spite of the inclemency of the weather, quite a number of youngsters turned up and enjoyed themselves immensely.

The performance itself came off on Tuesday evening. The pretty little Italian Hall, which had been beautifully decorated for the occasion with masses of gorgeous flowers that filled the air with a delicious aroma, was crowded to excess by a fashionable gathering composed of almost everybody of importance in the Southern suburbs. The programmes, got up by Mr. George Mackern of Calle San Martin, were a real work of art. The first piece, "My turn next," was admirably sustained by the Academy pupils, who were applauded again and again. Peggy was a model servant. Lydia, the young wife, looked so pretty that many of the gentlemen were filled with envy at Mr. Twitters' good luck. The farmer "Wheatear" brought our minds back to our dear little isle's green fields, while no one was surprised at the gallant Tom Trap's fulling over head and ears in love with Cicely. The parts of Twitters and Jim Bolns really could not better have been represented, and we hope our young friends will in future years become associated with the Buenos Ayres Dramatic Club and not hide their gifts under a bushel on arrival at manhood's maturer stage.

The second part, "Bubbles," was equally well rendered and received. Mr. Martin as Christopher Hogg was inimitable. During the last scene with Polly we saw tears in many an eye. Polly (Miss M. Brown) could not have been more graceful and naive. It goes without saying that Mr. Ryder Hancock made a perfect Sir Thyngummy Tallboy, fitting the part like a glove. Of Adele and Bob we cannot speak too highly. Smees, though taking a minor part of the play, did what he had to do well and caused much laughter. Miss F. Hayward made an excellent Mrs. Hogg, and Mr. and Mrs. Lovett (Bob and Adele) are a valuable addition to the Buenos Ayres amateurs.

During the entertainment six pretty little girls in Italian costume who sold flowers, sweets, etc. were admired and patronized by everybody. Indeed, six prettier little maids it would have been hard to find. While at the interval Miss Pope, who had assisted at the piano, sang "The Angel at the window" to Mr. F. Barnes' accompanying, and was much applauded.

The audience, who had frequently during the evening shown their appreciation of the programme, at the conclusion applauded again and again all connected with the programme, which certainly was a most decided success in every way and by far the best ever given out of town, for which we must felicitate the able Principal of the Lomas Academy for having spared neither time nor trouble in making the multitudinous arrangements necessary before any piece can be put upon the boards, and we must also express our appreciation of the admirable acting of the ladies and gentlemen who so kindly placed themselves at his disposal, and we hope that Mr. Hayward will not be long in again giving us another entertainment such as we had the pleasure of attending on Tuesday evening last.

*Six spectators.*

## TIGRE REGATTA.

Mr. Editor,

On the 11th of next month the regatta at the Tigre is advertised to take place. Could not the Buenos Ayres Rowing Club go a step further and organize a grand International Regatta here in Buenos Ayres?

Let the Tigre regatta be the Henley, and a Darsena regatta the Metropolitan, so highly appreciated and patronised on our Thames waters.

The double event would conclusively prove the merits of representative crews, first on running and then on still waters, the latter as hard and bona-fide a trial as you can get. Besides this, it would give a further stimulus to rowing, which is perhaps the finest and healthiest form of exercise known. I would suggest a mixed Committee of all our Argentine amateur rowing clubs, and surely they could inaugurate the Buenos Ayres Metropolitan Regatta, for the 14th of November. The Darsena would give an excellent course, the authorities would, I am certaiu, give every facility, and as for racing, those now entering on their training for the Tigre would go at it with greater interest, knowing that "hard lines" at the Tigre might eventually mean triumph a few days later. Prizes, even in these times, should be plentiful, a whip round, on a modest scale, should certainly provide for such trophies as:

The Buenos Ayres Grand Challenge.

The Argentine Amateur Challenge Cup.

The Madero Port Challenge Cup, (especially recommended to Messrs. Madero and Walker).

The Standard Plate, &c., &c.,

In fact, if well worked up, a brilliant success might be scored and pave the way for greater things in the future. Why not, too, provide something for those of us who cannot afford the welcome sight of a Tigre regatta, though the considerations I have already submitted should be sufficient to recommend the idea to the Committees of our rowing clubs.

Yours truly,
*Putney.*

## HOME FOR CHILDREN.

October 13th.

Mr. Editor,

I have read the letter of your correspondent, who proposes the establishing of some Home where mothers who have to go out to work could leave their children during the day.

We are constantly finding employment for poor women of this sort, but up to the present there has not been a sufficient number of cases to warrant us setting apart rooms for nurses for this work. However, I should be glad to hear from your correspondent as to his experience for the real necessity of such an Institution, if required. I shall be quite prepared to set a room aside and appoint a female to take charge of such children.

We have such Institutions in most of the large towns in England, which have proved a great boon, but I am loth to embark in any new enterprises, unless there is a real necessity.

I have no difficulty in finding work for women, and can often make arrangements as to their children.

Yours sincerely,
*Alfredo de Barritt.*
Major.

## ESTANCIA LIFE IN SUMMER.

Mr. Editor,

Many families resident in Buenos Ayres, my own amongst the number, who have not the means at their disposal of withstanding the expense of a change to Mar del Plata or other popular resort, on account of the high charges necessarily prevalent at those places, would be glad to hear of some estancia or other place in the camp, within reasonable distance from this city, where two or three clean rooms, plain and wholesome fare can be obtained at moderate cost.

The object sought is a change for health's sake, and as no luxuries are required, but rather simple home life in the country, it seems to me that among your many camp subscribers there must be some who would be willing to give the above facilities, for say some 2 dollars a day per person.

The extra cost to the camp household would be trifling, whilst the change and fresh air to those from town most enjoyable. An answer through your columns would, perhaps, be interesting to others, as well as to—

*Man of Business.*

*Ed. Note.*— We shall be happy to receive any letters on the above subject, for publication, or to be forwarded to "Man of Business."

## THE AMERICO-CHILIAN QUESTION.

FUNERAL OF THE SAILOR RIGGIN.

The N. York papers of August 11th contain the following account of the funeral of Chas. Riggin.

The Pacific Mail Steamship Colombia, from Colon, arrived yesterday morning having on board the body of Boatswain's Mate Charles W. Riggin of the United States man-of-war Baltimore. Riggin is the American sailor who was killed by the mob in Valparaiso last October. The body of the dead seaman had been exhumed from the English cemetery in Valparaiso at the request of Secretary Foster and shipped on board the Chilian steamship Cachapeal to Panama.

Consul McCreery accompanied the body from Valparaiso and made the formal transfer of it yesterday morning to the Committee.

Consul McCreery's journey to America was in obedience to orders from Washington calling for a special report from him. He is charged with having speculated with funds of which he had charge at the time of the trouble in Chile, and having used his knowledge of affairs to promote his personal gain. Since he had to come to Washington, he took charge of the remains of the dead seaman. The body was inclosed in an air-tight leaden case, which was placed in a birch casket, and this in turn inclosed in a deal box. This box became somewhat broken since the body was first buried, and was discarded at landing. The casket, with metallic handles, was carried by ten stevedores from the Colombia to her pier.

The committee arrived in Jersey City from Philadelphia at 10.20 o'clock yesterday forenoon in a special car, and was conveyed in one of the Pennsylvania Railroad tugs to the steamship pier at Canal Street.

On the arrival of the tug at Jersey City the casket was moved on a railroad truck and placed in the special car, and at 2.20 p.m the committee and their charge left for Philadelphia. The body is to be taken to Independence Hall, where it will lie in state thoroughout the day. The use of the historic building for that purpose was requested by a large number of military and civil associations, and Mayor Stuart gave the desired permission in the face of some adverse criticism from persons who objected to so higly honouring the remains of a man who was not an officer.

It is said that the general sentiment in Philadelphia, which was the home of the dead man, is in favour of the ceremonies of honour.

## EFFECTS OF THE MCKINLEY TARIFF.

Charles F. Peck, Commissioner of Labor Statistics of New York, has issued his report for 1891. The report is almost entirely taken up with a comparison of the wages paid and product turned out in the various industries for which returns were received for the two years ending August 31, 1890 and 1891, the object being to show the effect of the McKinley Tariff upon wages and product. Over 8,000 blank forms were sent out, and about 6,000, representing as many separate establishments, were returned with the questions "fully and correctly answered." These 6,000 separate establishments, representing 1,121 separate trades and employing 285,000 workingmen and women, have been grouped by the Commissioner into 67 separate industries. The results arrived at are: "That there was a net increase in wages of $6,380,000 in the year 1891, as compared with the amount paid in 1890, and a net increase of production of $31,300,000 in the year 1891 over that of 1890. Of the 67 industries included, 75 per cent show an increased average yearly earning in the year 1891, while the total average increase of yearly earnings of the 285,000 employes was $23. The average increase of yearly earnings of the employes in the 51 trades showing an increase was $44 in 1891, as compared with 1890." Hence Mr. Peck comes to the conclusion that the McKinley Tariff has been a benefit to the industries of the State and the workmen employed in them.

But are the methods which have been employed by Mr. Peck in this investigation such as to produce accurate results, or can the figures which he has given in his summaries be relied upon as truthful? Though his present report is a mere summary only, it furnishes sufficient material to enable one to judge of its usefulness. All the data on which the report is based were obtained from the manufacturers alone by means of printed forms of questions: 6,000 of these forms were returned "fully and correctly answared" says the Commissioner. By this he no doubt means that all the questions were answered, for he admits that he made no attempt to determine the accuracy of the data thus obtained by inquiries in other directions. Now it is a well-known fact that manufactures have become thoroughly sick of State and National investigations of their business, and that they fill out the blanks, send them as quickly as possible and often without the slightest regard for accuracy. It is upon the loose and unverified replies made in this way that the whole report is based.

A single illustration from the report will serve to show how little reliance can be placed upon Mr. Peck's figures of changes in total wages and product as showing prosperity or depression in the industries considered. Let us take the first case, agricultural implements; 44 blanks were sent in from as many establishments in this industry. The articles produced include such things as hoes, wheelbarrows, and small rakes which retail at 10 cents, mowers, harvesters and threshing machines. The returns from the 44 establishments reporting show that $309,000 less wages were paid and $1,900,000 less product turned out in 1891 than in 1890. The figures do not show whether this loss in wages and product was produced by a falling off in the manufacture of rakes, or in that of hoes, or in that of wheelbarrows, or in that of harvesters. Nor does Mr. Peck tell us how many of the manufacturers making returns were manufacturing hoes, rakes, wheelbarrows, harvesters and the great variety of other articles grouped together as agricultural implements. It is quite probable that were Mr. Peck to receive reports from another group of 44 establishments engaged in making agricultural implements, results would show that wages had increased $309,000 and product $1,900,000. This would certainly be the case if among the establishments reporting there were several engaged in the production of agricultural machinery, such as mowers, harvesters, etc., for 1891 was the best year for this industry for a long time. The method pursued in getting the data and tabulating it clearly shows that for the purpose of showing prosperity or depression the figures of increases or decreases in total wages and product are absolutely worthless.—*N. York Comm. Bulletin.*

## RAILWAY ITEMS.

By virtue of a decree issued by President Pellegrini shortly before retiring from office, the Contaduria General has paid up the East Argentine Railway guarantee minus the sums which the N. R. Board and Procurator of the Treasury advised the Government not to pay. These sums may or may not be paid later on. They amount to no less than $12,742 gold, the balance paid the Company being $329,345 gold. In reference to this railway, we may state that the working last year shewed a loss of $11,627 gold, the statement being as follows:—

| | $ gold |
|---|---|
| Gross Receipts.. | 119,450 |
| Expenditure...... | 131,077 |

Mr. Aristides Villanueva has tendered his resignation of the post of member of the N. R. Board in the following terms:

To the Minister of the Interior—

Convinced as I am that the National Railway Board does not attain the ends for which it was instituted for reasons that I cannot dwell on, I hereby tender my irrevocable resignation of my post on the Board. I have done everything in my power to prove worthy of the trust reposed in me by the Government in giving me a seat on the Board, but I think it a useless sacrifice on my part in the interest of the country, since the results do not correspond with my views.

I have the honour, etc.

*Aristides Villanueva.*

In reference to the foregoing we may state that Senator Domingo J. Perez has been offered the post left vacant by Mr. Villanueva's retirement.

## EDITOR'S TABLE.

The general bent of what the public is pleased to call its mind was again most optimistic yesterday. There was a Millennium and good-time-coming expression on every countenance, and a conviction that the Peña Government will save the country and force the Gold Eagle to retire from public life. Nevertheless, there were some extremely queer rumours afloat: but the present moment is a grand one for Dame Rumour, who is not a very reliable lady.

Captain Caillaux and a newspaper reporter will go up in the former's balloon at Palermo to-morrow, and we hope they will come down again safely. We would n't go up in a balloon for all the unissued Moratorium Bonds.

It is said that renewed diplomatic relations with the Holy See are on the cards. Naturally; and quite right too.

There was a visible decline of political gibberish yesterday, and more talk on the thrilling subjects of new wool, jerked beef and diplomacy (three rather queer bedfellows). Columbus was n't mentioned, another immense change for the better.

There was a $3,000 fire in Calle Juncal yesterday. The first blaze under the new Government ought to have been better than this. It's not a good omen.

We have received from Messrs. Childs, Saunders and Co. a most interesting analysis of their famous Treble S (Sound, Safe and Sanitary) Whiskey; but must defer our remarks on it till we have more space at our command.

An evening contemporary says that every man in President Peña's Cabinet is of the early-to-bed-and-early-to-rise order. We applaud an early adjournment to the blankets; but early rising and the "wild freshness of morning" humbug have killed more of the present overworked, anemic and milk-and-water generation than all the plagues since Adam could do.

The Tigre Boat Club intends holding the first of a series of Club races in the Lujan to-morrow, the events being as follows:—½ outrigged double sculls, ½ outrigged pair oar, inrigged fours. The races will commence at 12 o'clock sharp, and competitors are requested to be at the Boat House in good time.

The Under Secretary of Marine, Dr. Marco, resigned yesterday.

It is said that one of the first steps of the new War Minister will be to disarm and lay up most of the vessels of the navy, including those now in Europe, from motives of retrenchment.

Caramba! Another dreary dose of chloride of Columbus, Huelva and Centenary mixture by telegram yesterday. Enough! Enough!

The higienic state of affairs at the Docks is getting worse, and when the weather warms up in a week or two will be unbearable. As usual in this splendid country, the measures recently taken to secure a little sanitation and decency have made matters worse instead of better.

An extraordinary robbery is reported at Rosario, where half a dozen daring scoundrels with black crape on their faces boarded the pontoon lying in the river and made off with 250 cases of gunpowder and several of dynamite. The citizens are in mortal terror, as the naturally unskilled handling of such wares by the thieves may lead to old Rosary and every soul in it being blown over the moon.

Our distinguished countryman Mr. O'Kill the ventriloquist made a hit at his first performance on Thursday night in the Zarzuela Theatre. His partner Mr. Kij the wizard was equally successful. Madame Tusini's songs added much to the numerous attractions of the evening. The "tout ensemble" of the varied performance is most diverting. Nothing so good of its kind has ever been seen before in this city. Mr. O'Kill, although an Irishman, speaks Italian and French as fluently as King Humbert and President Carnot: indeed more so, as neither of these rulers has the "gift of the gab" in his own, much less in a foreign, tongue. O'Kill has it.

A letter in another column shows that there is still another long-felt want to be met, viz. cheap summer lodging in the camp for families who cannot afford to even mention such high-life, extravagant resorts as Mar del Plata, Tigre, San Fernando etc. The hotels in camp towns are, with few exceptions, as "abominable" as our collapsed correspondent "Paradox" could wish: and a change from the city to even the best of them would be no change at all. Camp people are too well-off here to take in summer guests, as is done in the picturesque farm-houses of old England; so the only way to meet the l.f.w. question is a hotel in the open camp, where families of moderate means could have modest fare and accommodation at moderate prices. Who feels inclined to make money by starting this business?

At the Tigre the doyen of the boatmen on the river is a Rock Scorpion named Colon, and he traces his descent to the great discoverer and swears there is a strong family likeness in their features. On Wednesday all the incidents of the landing on San Salvador were gone through, with Colon as "protagonista," the whole winding up with a jolly spree.

The police Commissaries were all very sorry to part with their Chief, Dr Donovan, and when he handed over the reins to his successor, General Goodoldman, on Thursday, there was quite a "conmovedora" scene; many of the Commissaries embracing him. Then there was a large procession of friends to Dr. Donovan's private residence, where all took a cordial farewell of the respected gentleman. The Commissaries intend to give him a banquet.

Has any enterprising trader in town got such things as Japanese hairpins in his stock? If he has, the ladies will buy them up like hot cakes, and the sooner he sends us a first-chop advertizement the better for him. We hear wonderful things of these Japanese hairpins, of which the *Ladies' Home Journal* says:—"The hairpins used are not so much for confining the locks in their places as for actual adornment, and are very fashionable. They are of enormous size seven or eight inches in length, and half an inch wide, and are made of various substances, tortoise shell, carved wood and ivory, many of them being composed of carved figures adroitly pivoted so as to appear to dance at every breath drawn by the wearer. Others are made of glass, and are hollow, and nearly filled with some brightly coloured liquid, so that at every movement of the head an air bubble runs from one end of the pin to the other, producing a most curious effect in a strong light. Sometimes an extra fashionable woman will wear a dozen or more of these pins in her hair, so that at a little distance her head looks as if a bundle of firewood had been loosely stuck into it. The higher in rank the Japanese woman the more elaborate her coiffurs is likely to be."

Commemorative medals and postage stamps, gold "plates" (not for dinner), congratulatory telegrams, and all sorts, shapes and sizes of mutual admiration tokens have been flying about since Wednesday; but we miss the usual soft-soap telegram from Rothschild and the River Plate big-wigs in London to the new Government. This is an unpardonable omission, and we hope the telegram will arrive to-day; they have it in type, just as it was sent to Uriburu, Garcia, Lopez, and we forget how many more. It is not fair to leave Dr. Romero out. Perhaps our London friends have their heads together in the composition of an entirely new telegram, and this will naturally take them some days to think out.

Here's something from London about Maids of Honour:—

"The post of Maid of Honor is one which is much sought after by the junior branches of the nobility, to whose ranks it is practically confined by the etiquette which requires that a Maid of Honor shall not be of lower rank than the granddaughter of an earl. The salary is £300 per annum and the duties are easy. Each maid has, as a rule, about three months' attendance at Court in the year, and during this period her chief business is to read to the Queen, sing or play, if she can, and accompany her Majesty in walks or drives when required. The rest of her time she has to herself. When she marries, the Queen always gives a present, and if she has become a favorite the Queen may give her rooms in one of the palaces, or some office, such as Woman of the Bedchamber. It is not therefore surprising that the Queen is beset with applications on all sides."

We publish to-day a 'precis' of the Government report on Argentine Railways in 1891. In our remarks yesterday on this subject the net profits were incorrectly put at £1,170,000, which should have been £1,070,000, and the net profit on capital in the preceding year (1890) was not 4½ per cent, but only 1½ per cent.

We are requested to announce that the Rev. W. Holland, M. A. will preach at the evening service at the Quilmes Anglican Church (to-morrow) Sunday the 16th.

There was a large crowd of Congressmen at the interment of Deputy Centeno's remains yesterday. Military honours were rendered by a regiment of infantry.

There is a raffle of dolls at the Kermesse in Plaza San Martin to-day; so we recommend all very young ladies to take a note of the fact.

A divorce case is on the tapis. Wife plaintiff. She went on a trip to Europe, and, like old Mother Hubbard, when she came back, he was playing——false to his matrimonial promises; so she has appealed to the law.

The new President of that one-horse C. A. republic Colombia, Dr. Michael Caro, is the right man in the right place. The salary of the Presidency is thirty-six thousand dollars per annum, but this Dr. Caro has refused, accepting for himself only a third of that sum, or the stipend of $1000 per month which is the amount assigned in the yearly budget as the salary of the Vice-President. He has not taken up his residence in the Palace, as is usual, but remains in a private house, and has renounced the use of the Guard of Honour which is detailed for the protection or luxury of the presidential personality. He has also dispensed with the services of the private Secretary allowed the President, and will attend to the despatch of business personally.

Another suicide. A Belgian named Demeurs, who blew his brains out in his lodgings in Calle Peru. He left a curious letter saying that he killed himself because he considered life quite "unnecessary." Slate off, we should say. Poor man.

A cricket match will be played on the Club Ground of B. A. and Rosario Railway A. C. Belgrano to-morrow, between the 1st XI and next XVI. Play commences at 12 o'clock, and members are particularly requested to turn up.

"We are going to have a late spring this year," said Mr. Hicks, anxious to stave off the spring clothes question. "Then I shall have to have another winter bonnet," said Mrs. Hicks. And then Mr. Hicks wished he had stayed in the frying-pan.

We are sorry to hear that Mr. Hansen, ex-Minister of Finance, will not accede to the request of his successor that he should resume his old post as Under Secretary of that department. Mr. Hansen cannot be blamed for this, but it is a loss for the new Minister and the country.

Put no confidence in a woman who is very thin; who is always ailing or pretending to be so; who laughs at nothing and is constantly complaining; and who, after breathing one sigh towards heaven, breathes a couple towards earth.

Our Montevidean neighbours having been engaged for three mortal days in spending money (which could have been better employed) in honouring the Centenary of Columbus, there were no papers from what we used to call the "sister city" yesterday. The telegrams report the high jinks that went on, and poor President Herrera as a prey to the fiend dyspepsia, as the unfortunate man had to eat half a dozen lunches and make twice as many speeches on Wednesday, at different celebrations of the day.

It has become the custom for every Hungarian member of Parliament to wear a red rose in his buttonhole, and it is rumoured that the opposition members, not to be outdone, intend to adorn their buttonholes with yellow roses. For the red rose the members are indebted to Representative Luppe, who brings two basketfuls to the House every day and distributes the fragrant buds among his colleagues.

Unique testimony indeed! The following is absolutely without precedent in the annals of vaticination:—"I consider that my discovery of America has conferred incalculable benefits upon the whole of mankind, because in ages to come the dwellers in the southern part of that great continent will have the inestimable privilege of obtaining underclothing and fancy goods of every description, of unapproachable excellence, and at moderate prices at an Outfitting Establishment of world-wide renown, namely at "THE ENGLISH," No. 594, Calle Cangallo, Buenos Aires."

## ON 'CHANGE.

Friday, October 14th 1892.
The improvement in the gold market continues and everybody in the speculation views the situation with a "couleur de rose" glasses. Meantime, producers and consignees are growling at the improvement, for they consider a fall in gold nothing short of a public calamity. The fall is a boon to the market and is quoted as such by bankers, merchants and the great body of consumers; our friends the "consignatarios" must veer round and swim with the current, for high gold is now out of the question; the gold market is rushing down an incline with the force of an avalanche, and nothing will prevent the "degringolade," not even the over-speculation of the sanguine bears. The corner has been turned at last, and it is a question of "vae victis" for all who oppose the march of events.

The new Minister of Finance may not be a John Stuart Mill nor an Adam Smith, he is certainly not a financial Cato, but he is known as a great opponent to State banks and issues of inconvertible paper money. We may rest assured that the Banco de la Nacion will be merged into a joint-stock company ere long, and that we shall see no more issues of paper as long as Dr. Romero holds the financial portfolio. There is already a very strong conviction in this regard in the market, and the effects we already witness in the sudden spurt in Patriotic Bonds, which points to the reopening of the subscription to the capital of the Banco de la Nacion. The very best impression prevails among the holders of these bonds, who look forward to a speedy rise in prices.

The Government decree calling for a general statement of the Contaduria General is applauded, and it is hoped that this balance-sheet will be published. The statement may throw some light upon the feasibility of consolidating the National debt at a certain rate; up to the present merely conjectures can be ventured as to the ability of the nation to pay 2 or more per cent interest on the debt. Dr. Romero has called for a clear statement, including the unfathomable item of extraordinary expenditure decreed by Cabinet Council or voted in the secret sittings of Congress; the publication of this document will, no doubt, cause some sensation as it will show at a glance the true state of affairs, as far as National finances at least are concerned.

In the gold market the conviction that we are on the eve of a headlong fall is paramount. The price of ounces would fall much more rapidly but for the natural effects of covering operations, which always act as a brake on a falling market. Sellers of gold on time are numerous and backwardation is freely paid; if time bargains were again allowed to figure on the black board we should see not only a mammoth speculation in such bargains, but should also see an enormous supply of fresh gold from Europe floating in this market from month to month, and acting as an immense fly-wheel in the speculation; it might give rise to great gambling no doubt, but it would be so much more ballast in the ship and therefore a valuable contingent.

About twenty thousand ounces changed hands at the first ring: the price opened at 51.50$, say twenty cents lower than last night's closing quotation, fell to 51.20, and closed heavy and weak at 51.30, say 215·20% premium. There are very many on 'Change who are of opinion that the ounce will fall to 45$ before the end of the year, say 176% premium, and if we can judge by the current of the speculation and the optimism rampant in the market, such an eventuality is highly probable. A heavy fall in gold would be of incalculable benefit to the country, although produce men may growl and send their produce to deposit: our London friends, especially the bondholders, would be in the seventh heaven: the latter are already "going off their heads," to judge by the rise in La Plata Cedulas.

Patriotic Bonds were steady at 73.30 to 73.20 for cash and end of month. Internal bonds opened firm at 67, but closed at 66.70. Catalinas fluctuated between 10 and 9.90. Municipal Consols were in steady demand at 59.10 to 59.40. A fair lot of National Cedulas changed hands at top prices. The rise in La Plata Cedulas was quite a feature in the market and was traced to our London friends who have now great faith in the stock since the 12th inst. at least. Prices here are under London quotations yet: the closing price at the first ring was 32.10: and went as high as 32.30.

Exchange shewed symptoms of weakness and dullness at yesterday's rates. Discounts were easy.

Cheques of the Provincial Bank improved to 34% discount: those of the National Bank jumped to 15½% discount. Bonos of the La Plata Mortgage Bank fell to 19.90% of their face value.

A splendid investment is offered for idle capital. The Sagastume camp in Entre Rios, lying between and touching two colonies, with soft grasses, two "puestos" and a railway crossing it at one corner, is for sale. Full particulars will be found in advertisement columns.

About forty thousand kilos of new wool arrived to-day at the South Plaza. The fall in gold affected business, and little was done. Messrs. Necol and Aguirre sold 3,000 kilos, good cross Lincoln quality from Dolores, at 8.25$ m/n per 10 kilos; buyers, Messrs. Wenz and Co. The other parcels were sent to deposit.

The gold market continued weak at the second ring; twelve thousand ounces were sold for to-morrow, the price closing at 51$, say 213.36 % premium. The market closed heavy. Patriotic Bonds were steady, and Internal Bonds were slightly firmer than in the morning. La Plata Cedulas were steady.

The Board of the National Mortgage Bank resigned "en masse" to-day, including the Chairman, Dr. Wenceslao Escalante.

At foot we publish the balance-sheet of the Banco de la Nacion; the figures are intersting.

The Provincial Mortgage Bank has another list of foreclosure auctions in the papers, but as they all refer to Centros Agricolas, which are ever-weighted with cedulas, it is unnecessary for us to publish them, as no "estanciero" or farmer could ever at to-day's price of cedulas and bonos take over the properties for what they are mortgaged; and unless they are sold for 1/10 of their mortgage, the bona fide investing public can take no interest in the matter.

It is rather a good sign to see the difficulties vessels have in getting wharfage room on the Riachuelo. This time last year there was room enough for everything, now it is a different story. The steamer Mercurio, which has just arrived from the South with 500 tons of salt and other produce, could not get her usual berth in front of Stewart's 'barraca,' which is both a loss and an inconvenience to the consignees of the salt, as it is an article that cannot bear the expense of much handling. Ultimately she found a berth at the 'barraca' Balcarce, but this has led to reclamations by the Salt Company, and the finale of the whole affair is that the Salt Co. henceforward will have a steamer of its own, which will prove a great saving and convenience to that company.

The works of the Magdalena and Punta Piedras railway, the Wilkinson concession, are, we are happy to hear, going ahead fast; and close to Punta Piedras they have discovered a vein of shells, which in the opinion of experts will give the most beautiful lime; and in connection with this subject we may state that Mr. Shaffleur has also discovered similar shell deposits at the 3 Bonetes on the Colorado, samples of which have been tested by experts with the very best results, and as the supply in the 3 Bonetes, according to Mr. Shaffleur, is inexhaustible, we may look forward to a great trade in these two great staples, salt and lime, from that district.

The following new members of the Bolsa are announced:—Messrs. J. de Saint Didier, Juan Lassalle, Carlos Olmi, Silvio Velasco, Candido Muñoz, Alfredo Huergo and Juan Vigné.

Messrs. Mackinlay Bros. sold yesterday the Chañar camp, measuring three leagues, in the partido of General Arenales for the sum of $100,500 m/n, buyer Mr. Kiernan.

Messrs. Funes and Lagos sold yesterday some fine Clydesdale colts from the estancia Grande of Mr. Jorge Bell as follows:—

1 for $700 to Unzué, 1 for 900 to L. Repetto, 1 for 650 to J. M. Rosa, 1 for 750 to same, 1 for 750 to Unzue, also 1 Cleveland stallion for 350 to Hernandez, 1 do at 400 to same, 1 do at 270 to Dillon.

Mr. Murray, of the London and River Plate Bank, Montevideo, was welcomed on 'Change; also Mr. Charles Lumb and Mr. Alfred Lumb who have arrived down from Mendoza after a pleasant trip to the Andes. They report it very hot up there. Mr. Traub, merchant of Patagones, who has arrived up in the Mercurio, was also welcomed.

The *Credito Publico Nacional* publishes the usual quarterly notice for the amortization of the only two surviving National loans in this market. For 1891 loan the amount to be amortized is 197,300 and for the 1892 loan the sum is 35,900. The bids are to be sent in for the 18th inst. It is not probable that the bids for the 1891 loan will be much under 75, as most of the large holders, owing to the special guarantees of these bonds and the obligation of the Banco de la Nacion to withdraw them from the market prefer to hold them, as they expect to see them very soon at 100.

Good telegrams from all quarters came in to-day. Rain in all the colonies and wheat shooting up splendidly. From Liverpool, London, Paris, and Berlin the most favorable telegrams were received; confidence in the River Plate is again springing up in those great capitals, and the same confidence is springing up here; the working classes, whose savings up to the present have been hoarded in gold are coming into the exchange shops and being sold for paper. The resumption of confidence here and in Europe means much more than the fall of 100 points in the price of gold; and in fact there is no disguising it; if as it seems now, we shall have a good harvest and the country quiet and freed from all the monstrous alarms of the last two years, there will be no holding in the market, the general improvement will be so rapid.

The Directors of the State Banks and Caja de Conversion tendered their resignation to day.

767 CUYO 767—We don't recommend our readers to read the aviso of Messrs. A W Boote and Co., 767 Cuyo, but certainly their photo views are worth seeing, and thrown away at the price at which they sell them. London Argentine Gauchos are in the shade alongside some photos we have seen of the real thing. Mr. Boote is the sole photographer in town who devotes such great attention to the charming scenery and interesting customs of this vast Republic. "Our unhappy relatives at home who only know this country from a Bond, Cedulas, or Moratorium point of view cannot be sent too many of Messrs. Boote's splendid photographs, as "recuerdos" which will solace their pecuniary anguish by the contemplation of the fine country their relations have adopted as a home." ### THREE GOOD REASONS

Why Sheepmen everywhere should use

Alexander Robertson's

HIGHLAND SHEEP DIP.

Best Summer Protection for Sheep. Cures Scab. Exterminates Vermin.

First.—It is an honest preparation. I publish the formula of its composition openly. I make no attempt to trade on the credulity of my patrons, who, with the formula before them, can form a shrewd opinion of the efficiency of the "Dip" and its value in Cash. I range myself alongside the Farmer, and make his interests my own.

Second.—It is a reliable sheep dip. That it Kills Vermin goes without saying—any Sheep Dip worthy the name will do that; but the Highland Sheep Dip does more,—it has a continuous destructive effect on all insects hatched after Dipping, and largely prevents future contagion from infested sheep. The strongly adhesive nature of the Rosin and Grease, which are the most powerful Waterproofing materials possible to introduce into a sheep Dip, "fix" the Dip in the fleece, forming, when dry, a film capable of resisting moisture, on every individual fibre of the fleece, so that when the fleece has been soaked by rain the sheep easily frees itself from all superabundant moisture by a simple shake.

Third.—It is the most economical Dip. For $1.75 gold Makers of Powder Dips give about 10 lbs. of Powder. This quantity of Yellow Powder Sheep Dip contains 2 lb Arsenic, 2 lb. Soda, 6 lb. Sulphur. These Dips kill vermin certainly; but their use is disastrous to the farmer—the harsh, dry feel of the sheep's fleece shortly after being bathed in these Alkaline Dips arises from the fact that the wool has been Robbed of its Natural Grease, which the Soda has converted into Soap, which, in turn, is washed out by rain. The farmer suffers a corresponding loss in the weight of the Wool, and the Sheep, robbed of Nature's protection, is left defenceless against cold and rain.

Soluble Fluid Dips—whose name is legion, though their nature is one—have an average cost of $1.30 gold per gallon, and consist of tar Acid Oil (25o/o), 6 lbs. Soap, Soda and Water 4 lbs. These Dips have to be used at nearly double strength to kill vermin, even then they have no effect on the eggs; and, from the volatile nature of Tar Acids their effect can never be anything but temporary, no matter what strength they are used. The one thing in their favour is their free solubility in cold water, which is but a poor return for the need of greater frequency of Dipping, or the other alternative of flocks suffering from the effects of a temporary Dip.

The highland Sheep Dip contains in each 15 lbs. (1½ gallon), costing 1.75 gold 2 lbs. Arsenic, 6½ lbs. Tar Acid Oil (25o/o), 2 lbs. Carbolic Acid (95o/o) 4½ lbs. Rosin, Grease, etc., i.e., all the Arsenic in 10 lbs. Powder Dip, and all the Tar Acids in 2 gallons Fluid Dip, these insecticides being combined with materials of unrivalled Waterproofing Power.

No other Sheep Dip Maker in the world has ever put an equally serviceable preparation in the hands of Sheep Farmers, or has given an equal value in material for the price charged.

### A LOS HACENDADOS Y á nuestra clientela

Animados por el favor y la confianza que los hacendados y el publico en general dispensa a esta casa, obligandole mas vasta estera de accion y deseando corresponder a sus exigencias, nos es grato comunicarle que desde la fecha hemos incorporado a nuestra casa de remates y comisiones las consignaciones de frutos del pais y cereales los que recibiremos a comision para vender en los mercados Central de Frutos, Constitucion y Once en las mismas condiciones que los demas consignatarios.

Semanalmente remitiremos a nuestros comitentes una revista de precios corrientes con fieles apreciaciones sobre el estado de la plaza.

Cuando los criadores o nuestros clientes lo pidan venderemos sus frutos en remate previo anuncio, lo que ofrecera la indiscutible ventaja de dar nombre y fama a los establecimientos productores, cuyos frutos con rarisimas excepciones se venden actualmente sin saberse en nuestra plaza y menos en Europa el establecimiento que los ha producido.

La venta en remate ofrece por otra parte en nuestro mercado mayores facilidades que en los del Havre, Londres y Amberes, porque aqui los compradores pueden apreciar mejor todo lo que compran, examinando el articulo sin enfardelar.

La distancia s que se encuentran nuestros mercados uno del otro y la circunstancia de hacerse los negocios simultaneamente en los tres, tiene el inconveniente de distribuir los compradores alejando la competencia, y el remate subsana este dificultad, porque como se anuncia previamente, permite a los interesados congregarse a una hora fija en el mercado donde ha de efectuarse la venta, estimulando el exito de las operaciones la competencia de los licitadores.

Para vender frutos en remate, sera necesario que asi se nos ordene expresamente, de lo contrario venderemos a estilo de plaza.

Esperando merecer en este ramo la misma confianza que en las otras comisiones, nos es grato repetirnos sus atts. y S. S

### GRANDIOSO REMATE

Campo y Haciendas

El importante Establecimiento "La Esperanza" en el 9 de Julio compuesto de 35000 hectareas de campo superior. Lo mejor del Oeste. A solo 4 leguas de la Estacion Guanaco y 5 de la de Carlos Casares.

Dividido en lotes chicos con opcion. Con grandes poblaciones y dividido en potreros. Magnifica poblacion principal, con amplios galpones, jagueles, con bombas, norias y bebederos correspondientes. Esplendidos alfalfares, montes y todo lo que constituye un gran establecimiento. Sin Base. ¡Sin Base.! I todas las existencias que son mas o menos, 20,000 vacas mestizas Durham y Hereford, 4,000 yeguas mestizas, Clydesdale, Percheron y Morgan, gran cantidad de potros en lotes, Padrillos, 600 ovejas mestizas y todos los enceres.

El remate tendra lugar el Miercoles 19 de Octubre e las 2 p.m. en el patio de nuestra casa Alsina 480 y 482 por cuenta y orden de su propietario Don Vicente L. Casares despues mas detalle.

NOTA—El pago de las haciendas debera hacerse en el acto de recibir la orden de entrega, sin excepcion.

Campo en Córdoba

La mitad de la estancia denominada El Chato.

16,487 hectareas de magnifico campo dividido en 20 lotes de 625 hectareas cada uno y otro de 3987 hectareas. Campo de superior calidad para la agricultura, rodeado de importantes Establecimientos formados en la Estacion Ausonia del F. C. de Villa Maria a la Carlota y Rufino, cruzado por el arroyo San Jose y conocida por de Cabral, de agua permanente.

Tiene lotes de algarrobo y en el distrito existen los grandes alfalfares de los Funes, Diaz y Ca. y las colonias de Dominguez, Ortiz, Ferreyra y otros. Con la infima base de pesos 10 hectarea.

El Viernes 4 de Noviembre a las 2 p.m. en nuestra casa Alsina 480 y 482, remataremos por orden terminante de su dueño, el magnifico campo mencionado, cuya ubicacion no puede ser mas importante, pues solo dista 3 leguas de las Estaciones Villa Maria y Ballesteros del F. C. C. Argentino e igual distancia de la gran Estacion Villa Nueva, cabecera del ferro-carril de este punto a la Carlota, y a solo 25 cuadras de la Estacion Ausonia del F. C. a Rufino.

Tenemos de este campo los mejores informes: hace 150 años que esta poblado; abunda la gramilla y el trebol; rodeado de Colonias es inmejorable para la agricultura. Actualmente hay 3 puestos arrendados sin contrato.

El arroyo Cabral que mencionamos no tiene ahora gran caudal de agua por estar estas interceptadas por un tajamar cuya destruccion no se ha pedida hasta ahora por estar salpicado de lagunas permanentes.

Como se ve por los datos que dejamos expuestos, este campo reune condiciones inmejorables tanto por su calidad, pastos y aguadas, como por su ubicacion y faciles medios de viabilidad y transporte.

Llamamos por tanto la atencion de los ganaderos y agricultores por la infima base de la venta; 10$ la hectarea y el fraccionamiento en lotes que permite distribuirlos a los pequeños capitales. Todo comprador sin excepcion abonara el 5 o/o al firmar el boleto.

Por planos y mas datos ocurrir a nuestra casa Alsina 480 y 482.

THORNCLIFFE

SHEEP DIP

We the undersigned, hereby bear testimony to having witnessed the dipping trials made with the above dip on two flocks of sheep badly infected with scab, at Mr. Patricio Ham's Estancia "Santa Margarita" (Capitan Sarmiento F. C. C. A.), on the dates of May 21st and June 13th 1892.

The dip was mixed in the proportions of one part of dip to forty parts of cold water.—The Sheep and lambs alike were passed through the bath, and we noted that not one single case of poisoning occurred, nor were the sheep uneasy afterwards, proving that the dip contains no poisonous or burning properties.—At the end of June we testify to having examined these sheep and found them **absolutely cured of scab with only once dipping.** We noticed also that they had improved remarkably in condition and that the wool shewed no signs of discolourment. We have every confidence in recommending the "**Thorncliffe Sheep Dip**" as one of the safest and most effective dips that has ever come under our notice.
